	Croonage																								
	Exposed Flesh (all on stage)																								
	Lyrical Insanity																								
	TOTAL																								
	THE WINNER:																								

Decide whether each factor warrants a high or low score, and enter H or L in the H/L column. For example, you may think a high level of campage warrants a high score (and who wouldn't), so you'd put an H in the column and accord scores based around a high level of campage being desirable.
